

Catching Snowflakes

TIME: 45-60 min

MATERIALS

- Black paper (background – sky)
- White paper (snowflakes)
- Various colours of construction paper
- Scissors
- Glue
- Pencil (optional – used for curling)

STEPS

- Start by cutting out a head with a nose pointing up.
- Cut out a curved sweater shape.
- Use the other colours of construction paper to add details like hair, scarf, and designs on sweater.
- Add snowflakes by cutting thin strips of paper and arranging in a star pattern.
- To make hair curly, wrap thin strands of paper tightly around a pencil and then release. Only attach one end to that the rest of the curls hang loose.
