

Catherine Rayner Bunny

TIME: 40-60 min

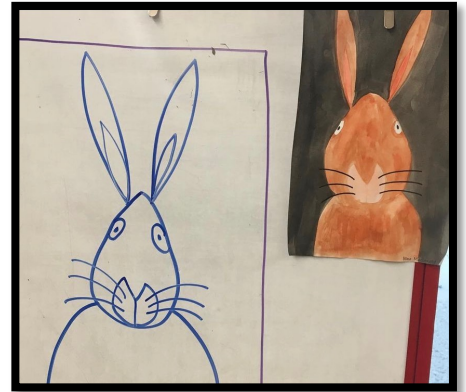

MATERIALS

- Pencil
- White paper (I used legal since we want it to be tall so the ears will fit)
- Sharpie
- Tempera paint pucks/watercolour paint (black, brown, pink)
- Paintbrush (thinner and thicker)

STEPS - DRAWING

- Start by drawing a raindrop shape in the middle of the page for the head.
- Add two eyes.
- Towards the bottom of the raindrop shape, make a nose by drawing a Y then join the top to the bottom with a rounded line. Add a few whiskers.
- Create a body with two rounded lines on either side of the head going towards the bottom of the page.
- Draw two large ears. They can be straight up like the sample or they could be large and floppy. If doing straight up, add the inside of the ear.

STEPS - PAINTING

- Once you have completed your drawing, start with the lightest parts of your painting first.
- Start with the pink nose and inside of the ears.
- Next paint the brown bunny.
- Finally paint the black background.
- Once your painting has fully dried, draw on the eyes and the whiskers.
