

# Ripped Paper Holiday Cards

\*DIRECTIONS ARE FOR REINDEER CARD. IF CHOOSING ANOTHER, FOLLOW THE STEPS BUT WITH THE CORRECT SHAPE/COLOURS.

**TIME: 30-40 min**

## MATERIALS

- Glue
- Water
- One paint brush (medium to larger size is best)
- Black marker
- Pencil
- White acrylic paint
- Construction paper
  - 2 brown
  - any colour for card
  - optionally use red for nose and any colour for scarf
- Optional - sparkly paper for nose and scarf

## STEPS

- Choose any colour construction paper for the card. Fold in half.
- Sketch out a reindeer head, ears, antlers and neck on your card. No need to make it dark, it's just a guide.
- Rip up brown paper into small pieces and glue them down inside the guide lines on the card. Using another colour brown, do the same for the antlers and inside ears.
- Draw black eyes using a marker.
- Use construction paper or sparkly paper for the nose and scarf.
- Put down newspaper or a table cloth to protect a table while you add the snow. You can also go outside to do this part.
- Mix white acrylic paint with a bit of water to thin in out. Using a paintbrush, splatter the paint over the cards to create the snow.
