

Spring Chicks Card

TIME: 30 min

MATERIALS

- Construction paper (yellow, orange, green, plus any background colour)
- White paper
- Craft feathers
- Scissors & glue
- Pencil
- Hot glue
- Markers/pencil crayons etc

TEACHER PREP

- You need to cut your paper into smaller chunks.
- Yellow - half sheet/student
- White - half sheet/student
- Orange - small square/student
- Green - cut in half along short side, then make strips (size should cover the bottom of the card)

STEPS

- Cut a chick shape (head and body)
- Cut an egg shape big enough to cover the base of your chick, then make diagonal cuts for the egg to crack open
- Fold the card construction paper in half, then glue the chick and egg to the front
- Using the extra white paper, cut two eyes and use the black marker for pupils
- Use the orange paper to make a beak. Only glue one side so that it opens
- Use your scissors to make cuts in the green strip for the grass. Be careful not to go all the way down. Fan it out a bit to create some texture.
- Attach the feathers using a hot glue gun
- Write your spring or Easter message inside
- *Optionally, some students wanted to decorate their egg. Use any coloured pencils or markers for this.
